

Want to make a difference in your world, but don't know where to start?

How about starting here

Here,

Or here?

Making a real difference can be as simple as teaching these pups how to love and be loved.

Why Should I Foster?

1. You Can Save a Life by keeping a dog out of the shelter until we can find it's forever home.
2. You can see if you are ready for your own St. Bernard, or if you're ready to add another pet to your family.
3. You will make a difference, because we can't do it without people like you!

What Does A Foster Family Do?

What does a foster family do? A foster home provides the dog with food, water, indoor shelter, grooming and training, and will administer medication if necessary. The foster family provides love and socialization. The foster family should commit to keeping the dog until placed for adoption. The foster family will be asked to evaluate the dog in their care. Is the dog good with children, other dogs or cats? The foster family should expose the dog to as many different situations as possible in order to know the dog and what type of home the dog would do best in.

If you would like to apply to foster a Sunny Saint, visit us at www.sunnysaints.org and fill out a foster agreement and adoption application (be sure to write in "foster only.") Forms can be emailed to pam@sunnysaints.org or FAX them to her at 562.435.6361.
